

# MSP in a Box License Statement

*Homines dum docent discunt. - Seneca*

Hartmann Industries has decided to license the MSP in a Box educational resource under the Creative Commons Attribution-ShareAlike 4.0 International (CC BY-SA 4.0) license. This decision was made based on several factors, including the company's commitment to open education, the belief that the resource will be more valuable if it is widely shared and used, and the desire to give back to the community by making the resource freely available.

The CC BY-SA 4.0 license allows for the sharing and re-use of the MSP in a Box resources, as long as proper attribution is given to Hartmann Industries and any derivative works are also shared under the same license. This means that others can use the resource for their own educational and commercial purposes, modify it to suit their needs, and share it with others, as long as they give credit to Hartmann Industries and share any modifications under the same license.

This type of open licensing promotes the sharing and re-use of educational resources and can lead to the development of new and improved versions of these resources. In addition, by making the MSP in a Box resources freely available, Hartmann Industries hopes to help bridge the digital divide by providing access to high-quality educational resources for those who may not otherwise have access to them.

Hartmann Industries calls on all vendors selling their products and services to MSPs to join us in the free education movement. We believe that open education is one of the best ways to bridge the digital divide and ensure that all have access to the quality resources they need to succeed. By creating a unified front, our industry can move towards a more equitable and accessible future.
